

Stacked Intelligence

An AI assistant set up the way you work.

Hire and train your first AI staff member. It helps your people, never replaces them.

The office work eats your nights.

Replies that wait

Customers hear back late, or not at all, because you were doing the actual work.

Follow-ups that slip

Repeat and referral business is the easiest money you have. It slips away in a busy week.

Writing it all yourself

Posts, emails, quotes and updates, written at night after the real work is done.

Explaining yourself to AI

A general AI chat forgets you between chats, so you start over every time.

Your hours, your numbers.

We fill this in together. Only your numbers go here.

	HOURS A WEEK	YOUR HOURLY VALUE	A YEAR (HOURS × VALUE × 50)
Replies and emails			
Follow-ups			
Posts, quotes and updates			
Other repeat writing			
Total			

Illustrative worksheet. Nothing here is a promise of savings.

Five layers. One assistant that knows you.

Your checks

Your own "done right" test, run on every draft

Your jobs

One recipe card for each job you repeat

Your rules

What it must always or never do

Your voice

How you write, from real samples

You

Who you are, what you sell, who you serve

The Stacked Folder Method is our way of teaching the ICM folder system created by Jake Van Clief.

A day with your assistant.

Morning

"Who do I follow up with today?" Your Pro kit reads your contacts and lists them, with a draft for each.

Midday

A customer email comes in. Type the gist, get a reply in your voice, checked. You send it.

Afternoon

Turn a few notes into this week's post or update, written the way you write.

Any time

Add a new rule once. Your assistant uses it from then on.

Built for yours, whatever it does.

Custom, never a template

Built from your own answers to the setup questions, so it fits how you work.

Agents and local shops

Real estate agents first, plus service shops and offices with writing to do.

One person or a team

A one-on-one setup, or team training for up to 10 people.

Lite writes for you. Pro remembers for you.

Lite

Runs in an AI assistant project and works with a free account. Writes emails, follow-ups, posts and updates in your voice. Works on your phone.

Pro

Everything in Lite, plus memory. It reads and saves files, so it keeps your contacts, dates and follow-ups up to date. Runs on your computer and needs a paid AI assistant plan.

Nothing goes out without your yes.

It drafts, you decide

You approve every message before it is sent.

Checks on every draft

Your own checks and your industry rules run first.

You own your AI

It's your AI, and you own the data. Checkups show file names and counts only.

Plain files you own

A folder you can open, change and back up. No black box.

Pick the one that fits.

\$749

Pro setup

2 hours together,
one-on-one, on your own
computer.

\$999 / \$1,999

Team training

Up to 10 people. Lite is 1
hour, Pro is 2 hours.

\$99/mo

Kit Care

Optional. Fix packs by
email, the quarterly
upgrade and new-model
checkups.

\$199/mo

Kit Care Plus

Kit Care, plus a monthly
checkup and review.

Business consultation: \$249 for 1 hour. Teams over 10: ask for pricing. Extra help: \$150 an hour, 1-hour minimum.

Your AI assistant plan is separate and paid to the AI company.

Simple, safe and yours to keep.

One price, in writing

You see the price before we start. No hourly surprises on the setup.

A 50% deposit holds your date

The rest is due on the day. Cancel 30+ days ahead for a full refund.

You own it

Plain files you can read and change. Kit Care is optional.

Training included

Every setup starts with a lesson and comes with a cheat sheet.

Let's talk for 15 minutes.

Tell me how your business runs. I'll show you where an assistant fits.
